What can I do to help my child?

Maths

- Learn / reinforce knowledge of times tables
- Play games that provide opportunities to add and subtract 2-digit and 3-digit numbers mentally
- Remember - your child may solve a question in a different way than you do. So long as your child can explain their method and achieves the correct answer this does not matter!
- Play games to help learn mathematical vocabulary (e.g. "I'm thinking of a shape. It has 4 equal sides but no right angles. What is it?")

What help is available for my child during the tests?

- All children can ask for any questions on the maths papers to be read aloud for them
- Children who need more support with reading will have an adult 'reader' who is able to read every question aloud for them
- If applicable, extra time can be requested for individual children. These applications have been submitted
- The reading paper cannot be read aloud to any child however some children may work with an adult if support is necessary
- If a child's response cannot easily be read by the marker (due to difficulties with spelling or handwriting) a scribe can re-write the response at the end of the test
