Draw a line to match the questions in the snowballs to the answers in the fish.

Draw a line to match the questions in the snowballs to the answers in the fish.

Get digit cards 1 to 9 and shuffle them. Choose three numbers and write down a two digit number multiplied by a single digit number. Work out the answer.
What other sums can you make using the same three cards?

Name: _____

Class: _____

Circle the incorrect homophones in this piece of text.
There are 17 homophones to find.

It was the day of the **fare/fair**, and Stig was waiting for Granny to return from her holiday. He was hoping that the **plane/plain** wouldn't be delayed at the airport, as Granny had **mist/missed** all the fun the year before, when she had hurt her arm and it didn't **heel/heal** in time for her to go.

Just after lunch, Mum said she could **hear/here** the doorbell, so Stig ran to the door to open it.

"I didn't know **whether/weather** you would make it or **knot/not!**" exclaimed Stig when he saw Granny standing there.

"I couldn't **weight/wait** to get home to take you, I think we will have a **great/grate** time," replied Granny with a big smile on her face.

Not long after, they arrived at the fair and Granny let out a **groan/grown** when she saw how long the queue to pay was. They had to **except/accept** that it would be a while before they would get to see all the stalls. Eventually, they made it to the coconut stall and Stig threw a **bawl/ball** and the coconut broke in two. Granny was so excited, she jumped in the air and dropped her glasses, but luckily they didn't **brake/break**. Next they went to get some candy floss. When Stig finished his, he went to **steel/steal** a **piece/peace** of Granny's, but she laughed and wouldn't let him.

After they had been to all the stalls, they were both tired and **wary/weary**, so they decided to go home.

"I think we have **scene/seen** everything," said Granny. "It's been a fun day, now time for a cup of tea!"

Name: _____ Class: _____

Insert the correct homophone in the sentences below.

Tip: The missing words are homophones of the words used in the text above.

- 1 They had to pay the correct fare on the bus.
- 2 She tied a knot in the string.
- 3 The bridge wouldn't break because it was made of steel.
- 4 The weather was lovely on holiday.
- 5 The children had grown tall over the holidays.
- 6 "Come over here ." called Stig.
- 7 "Please grate the cheese on the pizza," said Granny.
- 8 The cat was wary of the dog.
- 9 The mist was swirling around the trees.
- 10 Granny used the plain flour to make cookies.

Newton and Gravity Answers

1. When was Isaac Newton born?
Isaac Newton was born in 1643.
2. Why did Newton move from Cambridge to Woolsthorpe Manor?
Newton moved to Woolsthorpe Manor because plague broke out.
3. What fruit did Newton see falling from a tree?
Newton saw an apple falling from a tree.
4. In which direction does gravity pull objects?
Gravity pulls objects down towards the centre of the Earth.
5. Why does the Moon stay in orbit around the Earth?
The Moon stays in orbit around the Earth because gravity pulls it towards the Earth.
6. What are forces measured in?
Forces are measured in newtons (N).
7. What did Albert Einstein think of Isaac Newton?
Albert Einstein thought that Isaac Newton had one of the most brilliant minds of anyone who had ever lived and that he was a 'shining spirit'.
8. What can still be seen from Isaac Newton's old bedroom window?
The apple tree that inspired Newton's ideas about gravity can still be seen from his old bedroom window.

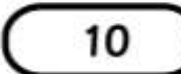

Name: _____ Class: _____

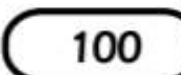

Complete the sums by matching the number sentences with the numbers on the buckets.
One has been done for you.

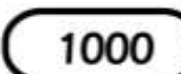

The answer has been done for you. What is the question?

Make up three sums of your own below by writing the numbers on the buckets.
Don't forget the symbol.

1  \div  =  

2  \times  =  

3  \times  =  

The Sea Waved Back

Name: _____

Class: _____

Write two multiplication and two division word problems for your partner to solve in the space below.

- 1 There were 23 people on the boat.
They all had 3 bags each.
How many bags were there altogether?

$$23 \times 3 = 69$$

- 2 Sten found 8 boxes in the shipwreck.
Each box had 21 pieces of treasure in.
How many pieces of treasure were there altogether?

$$8 \times 21 = 168$$

- 3 Manu spotted 18 fish.
Each fish had 4 spots.
How many spots were there altogether?

$$18 \times 4 = 72$$

- 4 There are 34 fish in each of the tanks.
There are 5 tanks on the boat.
How many fish are there altogether?

$$34 \times 5 = 170$$

- 5 Manu spots 15 fish.
Each fish has 4 fins.
How many fins do the fish have altogether?

$$15 \times 4 = 60$$

- 6 There are 48 people on the sea expedition.
They are split into groups of 4.
How many groups are there altogether?

$$48 \div 4 = 12$$

- 7 Sten and Manu share the treasure that they have found.
There are 64 pieces.
How many pieces of treasure do they each get?

$$64 \div 2 = 32$$

The Sea Waved Back

Activity Sheet
