

GREAT DISCOVERY OF THE PICTURE

Dr. stone discovers fantastic cave painting.

On Monday 9 October the amazing dr. stone came in to St Mary s Junior in the great hall to talk about his new fantastic discovery. The amazing cave painting of his face. It was his 50th cave he had searched. He had found a great piece of flint outside the cave. It was only for the year 3s. The cave painting he had found showed he had traveled

Alice said that it was amazing! Also she had never seen anything like it!

his fantastic discovery. He had been searching for years! What he showed us was some fragments of a Stone Age bowl. As he showed year 3 a drawing of his face, we all gasped in amazement. Can he still time travel? Will he go back again? He had a amazing piece of flint and some cave rock. Year 3 asked lots of questions about his amazing adventures! The great piece of flint he had found was part of his long lost spear top. His fantastic discovery should be a book! The cave he found his picture in was in

back in time to the amazing Stone Age! He is one of the cleverest archeologist and he showed us a spear to make our interest. He found his amazing picture at last. An amazing start to the day! Year 3 watched in amazement. It was magical child one said. He had finally proved that he could time travel. We watched in a trance child two said. We were amazed at

northern France! The fragments of the Stone Age bowl was very crumbly. The amazing clever archeologist had never given up in finding the picture his face, perseverance is one of St Mary s Junior Schools values.
